## **Professional Summary**

As an MCA student at NIIS Institute of Business and Administration, I am passionate about leveraging my knowledge in Java, Python, and frontend technologies to build scalable and responsive software solutions. I have a solid foundation in object-oriented programming and web development, and I actively engage in tech communities to stay updated with industry trends. I aspire to contribute to software development and UI design projects that solve real-world problems.

## **Technical Skills**

- Programming Languages: Java, Python
- Frontend Development: HTML, CSS, JavaScript, React (learning)
- Tools & Platforms: Git, GitHub, VS Code
- Software Development: Object-Oriented Programming, Web Development

## **Education**

**Master of Computer Applications (MCA)**
